**Attachments:** FDA List of Side Effects with Intro.docx

[CAUTION]: This email originated from outside Kitsap Public Health District. **Do not click links or open attachments** unless you are expecting this email. If you are unsure please contact IT.

Hello Angie,

About five days ago, a nonprofit group called Policy Exchange facilitated a filmed interaction with Bill Gates and Jeremy Hunt, who has served the UK as chair of the Health and Social Care Select Committee since 2020. During the interview, Gates declared, “We didn’t have vaccines that block transmission” and he got even more frank declaring, “We got vaccines that help you with your health, but they only slightly reduce transmission. **Bill Gates admitted that the vaxes don’t work** when he said, “They don’t stop transmission” ...of Covid-19 and its variants. Here’s his statement on film: <https://rumble.com/vp16v5-bill-gates-admits-covid-19-vaccines-dont-stop-viral-transmission-rebel-news.html> and an article with the full interview: <https://sandrrose.com/2021/11/bill-gates-admits-mrna-vaccines-arent-working-we-need-a-new-way-of-doing-vaccines/>

Each of the highly renowned doctors below are against the continued use of the EUA shot. Many informed and intelligent citizens of Washington State and Kitsap County are requesting that you do not support the vaccine mandates for the love of our neighbors, our friends and our families. Instead, support life and early treatment with therapeutics including Ivermectin, monoclonal antibodies, and steroids for CV-19 patients, so the chain of injuries and deaths are stopped and immunity is preserved.

We need to stop the protocol of sending early positive CV-19 patients home without treatments to prevent the cascade of symptoms that lead to CV-19 pneumonia and often certain death. Too often patients are directed to go home, and unfortunately, they often return to the hospital much too late for successful treatment of the COVID-19 killer pneumonia. The hospitals are treating patients with remdesivir which fills the lungs with liquid and destroys the liver and/or the kidneys. I urge you to join with the informed who work together to stop the mandated vaccinations.

The CV-19 shot being used under the FDA Experimental Usage Authorization (EUA) is an mRNA inoculation. **Dr. Robert Malone** who **pioneered the mRNA vaccines** has stated that no one should take the CV-19 experimental shots: He states, "They are not vaccines." Jimmy Dore's in-depth interview with Dr. Robert Malone:

<https://www.youtube.com/watch?v=iwPKnOhJRYg>

**Dr. Luc Montagnier**, awarded the Nobel prize for discovering the HIV virus, **says the shots should be stopped immediately** and that the vaccinated are spreading the virus. (<https://rumble.com/vhmfgf-dr.luc-montagnier-on-mass-vaccination.html> and his vitae <https://www.mediatheque.lindau-nobel.org/laureates/montagnier> ) In places where there are no new CV-19 cases, the hospitals are filling up with vaccinated patients.

**Dr. Michael Yeadon**, previous VP of Pfizer, says for every one child that dies naturally from Covid-19, there will be 100 who die from the EUA vax. Here he discusses his thoughts as to why the lockdown was a

mistake, and why the government strategies to manage the pandemic are only making things worse: <https://www.facebook.com/unlockedunitedkingdom/videos/409747283542470/> and recently

<https://www.youtube.com/watch?v=vL1-oVMM8rk>

**Nominated for four Nobel prizes in medicine, Dr. Vladimir (Zev) Zelenko** has set up successful protocols to use Ivermectin and certain supplements as 1) prophylactics, 2) to fight the infection and 3) to remove the failing and injurious EUA shots from the body.

<https://www.bitchute.com/video/bP2372xssLnb/>

Here are a number of testimonies from vaccinated patients who are injured by

COVID-19 vax side effects.

<https://www.c19vaxreactions.com/real-video-stories.html>

In support of transforming Kitsap County into a safer place in regard to CV-19 without instituting a mandate, I am willing to provide you with additional information on the jabs. I too am in favor of suggesting we do everything we can to protect our community---especially the children. Our small businesses are the lifeblood of our economy. CV-19 can be treated with safe therapeutics including Ivermectin, monoclonal antibodies, antivirals, steroids, azithromycin and others. Once an FDA approved and safe therapeutic can treat a disease, the FDA policy has always been to immediately stop any EUA drug from being used (see the FDA website). Now that CV-19 deaths have fallen dramatically wherever CV-

19 patients have access to therapeutics, it's imperative we STOP THE JABS.

Please forward this email and the **attached FDA EUA shot side effects list** to board members...and others whom you think would be interested. Because I and others who support the truth know the Big-Pharma-advertising-supported corporate media will not focus on Bill Gates stating that the shots don't work, I am sending it to the Board to conscientiously share this information with everyone who cares about our community's health and especially our dear children.

We must use our critical thinking to get to the truth of what is happening and ignore the propaganda being spoon fed to viewers of the corporate media, which is mostly owned by four (4) corporate media giants.

Thank you, Angie.

Linda Jeanne Hagan  
360-535-9385

PS: Corporate media labels "misinformation" any facts that don't replicate their propaganda designed to bring in the Great Reset. Reuters is owned by the Rothschilds whose New World Order/Great Reset is a plan to have the wealthy own everything and the middle class and lower classes to own nothing. Klaus Schwab is a Rothchild. Fact checkers are biased and owned by Reuters which is owned by the Rothschilds who have planned this Great Reset for

years. Here is Schwab explaining his perspective, the perspective shared with other oligarchs:

<https://www.youtube.com/watch?v=TZyzI7ojsho>

An FDA slideshow presentation regarding last year accidentally displayed a long list of possible adverse reactions to the EUA vax, including myocarditis, seizures and even death. Since then, many of these "possible adverse reactions" have been or could be experienced by vaccinated individuals. Attached is the FDA slide unveiled during their Oct. 2020 webinar.

The legacy corporate media has never mentioned these vax injuries because they are owned by corporations who profit greatly from Big Pharma advertising dollars and, therefore, parrot what the pharmaceutical companies want them to say. Per Forbes as of 2020, globally in terms of revenue, the largest media conglomerates include Viacom CBS, Sony Corporation, News Corp, Comcast, The Walt Disney Company, AT&T Inc., Fox Corporation, Hearst Communications, and MGM Holdings Inc. per Forbes. (Wikipedia)

Below is the FDA's list of possible adverse events that could occur to over 82,000 victims of the EUA shots purposely falsely called "vaccines" by the corporate media, which is heavily dependent on Big Pharma advertising dollars.

The slide is headlined, "FDA Safety Surveillance of COVID-19 Vaccines: DRAFT Working list of possible adverse event outcomes \*\*\*Subject to change\*\*\*."

**FDA Safety Surveillance of COVID-19 Vaccines :**  
**DRAFT Working list of possible adverse event outcomes**  
**\*\*\*Subject to change\*\*\***

- \* Guillain-Barré syndrome
- \* Acute disseminated encephalomyelitis
- \* Transverse myelitis
- \* Encephalitis/myelitis/encephalomyelitis/meningoencephalitis/meningitis/encephalopathy
- \* Convulsions/seizures
- \* Stroke
- \* Narcolepsy and cataplexy
- \* Anaphylaxis
- \* Acute myocardial infarction
- \* Myocarditis/pericarditis
- \* Autoimmune disease
- \* Deaths
- \* Pregnancy and birth outcomes
- \* Other acute demyelinating diseases
- \* Non-anaphylactic allergic reactions
- \* Thrombocytopenia
- \* Disseminated intravascular coagulation
- \* Venous thromboembolism
- \* Arthritis and arthralgia/joint pain
- \* Kawasaki disease
- \* Multisystem Inflammatory Syndrome in Children
- \* Vaccine enhanced disease

**FDA**  
FOOD AND DRUG ADMINISTRATION (FDA)  
Center for Biologics Evaluation and Research (CBER)  
161st Meeting of the Vaccines and Related Biological Products Advisory Committee

Possible adverse reactions shown in the FDA's "working list" include:

- Guillain-Barré syndrome
- Acute disseminated encephalomyelitis ("Characterized by a brief but widespread attack of inflammation in the brain and spinal cord that damages myelin – the protective covering of nerve fibers," according to NIH.)
- Transverse myelitis
- Encephalitis/ myelitis/ encephalomyelitis/ meningoencephalitis/ meningitis/ encephalopathy
- Convulsions/seizures
- Stroke
- Narcolepsy and cataplexy
- Anaphylaxis
- Acute myocardial infarction
- Myocarditis/pericarditis
- Autoimmune disease
- Deaths
- Pregnancy and birth outcomes
- Other acute demyelinating diseases
- Non-anaphylactic allergic reactions
- Thrombocytopenia
- Disseminated intravascular coagulation
- Venous thromboembolism
- Arthritis and arthralgia/joint pain
- Kawasaki disease
- Vaccine enhanced disease

The list also notes "Multisystem Inflammatory Syndrome in Children" as one possible outcome following vaccination.

While adverse events were generally discussed throughout the meeting, the slide's contents were not covered in-depth.

Hello Mr Grellner,

I've written a few times with ideas on how to create safer covid policies for our kids in schools. Tomorrow is a big meeting where it seems as though nothing very helpful will be decided in the way of promoting increased public safety, in regards to covid. I'm sorry and appreciate your efforts and those of Dr. Morrow in advocating for the needs of our public health and the needs of our medical community. If I am wrong and progressive decisions are made I thank you.

Other counties have medical professionals on their health boards. This makes a lot of sense to me. I think moving forward we need to restructure our public health board so that they can prioritize public health. I understand there are many contradictory interests at play on the board: there are economics, there is a desire to not aggravate extremists, however, when your group is entitled "public health" that should help to structure how to evaluate priorities and make decisions. I think Dr. Morrow would agree, as many of my friends who are doctors and nurses, we are no longer dealing with an epidemic but an endemic and although the delta variant is spreading less fervently at the moment, we are approaching winter when it will likely flair up again, or the next variant will take it's place. We need an effective plan in place, we need to do better, even if the board will not make the plan now, I would ask you put in place an action plan for when covid brings our hospitals to the brink once again.

Also, I need KPH to serve as a more informed and dynamic support for schools. When I bring complaints to the school board, they quote me that they are taking advise from kitsap public health but if KPH has no medical professionals on the board and are not prioritizing health then I don't feel confident that my son is being provided the safest school policies when it comes to preventative covid measures that need informed and responsive support.

I once again, appreciate the work you do adocating for public health and safety and hope that we can work to create a board that reflects those priorities. Please let me know if there is anything I can do to advocate further to keep my kids and family safe and improve Kitsap Public Health.

Heather Budd

[CAUTION]: This email originated from outside Kitsap Public Health District. Do not click links or open attachments unless you are expecting this email. If you are unsure please contact IT.

I am writing to request that the board require vaccines to eat at Kitsap County restaurants. We've been under lockdown since March of 2020 and have not been able to eat indoors at any restaurant since then, only doing take-out at a handful of establishments. If King, Jefferson, & Clallam counties can require it, why won't Kitsap?

Perhaps you know who Brett Weinstein and Heather Heying are? (From the Evergreen College down in Olympia) Once again: Dr Morrow here in Kitsap County and the Public Health officers throughout this state (and nation) HAVE FAILED THE CITIZENS HE/THEY WERE TASKED WITH PROTECTING.

It is time to ask for Dr Morrow's resignation.

Any Health Board member who condones vaccination mandates for businesses, as well as denies Early Treatment, has failed this community. Time to resign.

The "disinformation" referred to by Dr Morrow is coming from his public health masters. The CDC and FDA have lost considerable credibility with the general public; it is long past time to open up our county and country.

There is now a lawsuit heading to a Virginia court "...to allow doctors to "doctor"", filed by Dr Paul Marik against the Sentara Healthcare System. This is the beginning of lawsuits against systems which forbid doctors from administering proven treatments for Covid.

Kitsap's Public Health officer is derelict in his duty if he is unaware of how highly preventable and treatable Covid is. He is so far behind the science that he has rendered himself ineffective and, indeed, harmful to our community.

I am writing to urge you to do everything you can do to enact a permanent prohibition on the use of any type of health passport by government or private entities. Very simply, they are coercive and un-American.

And as for individuals that can't take vaccines, due to allergic reactions it will turn them into a "marginal" citizen.

I have severe chemical sensitivity and could have a fatal antiphallic shock incident by any vaccine.

Whether the programs are implemented by the government or a private business, know that any type of health passport threatens our freedom and fundamental rights. These "vaccines" have many side effects and even as the date of this mail over 4,000 have died. It is unacceptable to continue these dangerous shots.

Imagine being denied access to the community where you live or not being able to frequent the businesses there because you don't have proper documentation (or don't want to show that documentation). This is precisely what lies ahead for the American public if you allow vaccine passports to be ushered in.

Although vaccine passports are being touted as vital tools that will restore normalcy and allow our country to reopen safely, experts say that the cost of their use is too high. They threaten our basic human rights, our civil rights and our democracy by creating policies that combine elements of Jim Crow, Apartheid and Nazism. At present, nearly 20 vaccine passports are under development in the United States. If they are widely instituted, they will quickly create a two-tiered, caste-like society of

haves and have-nots and desirables and undesirables. Segregation, which this country fought for so long to abolish, will once again be rampant.

The ACLU has also warned that vaccine passports stand to disproportionately harm the most vulnerable members of society. For example, for single mothers, pregnant women, minorities and those who are economically disadvantaged, failure to comply could mean starvation, homelessness or the inability to receive needed medical care.

It's unacceptable to restrict the rights of individuals based on their personal health decisions or vaccine status. The Universal Declaration of Human Rights was enacted in 1948 to protect against such abuses. It states, "Everyone has the right to freely participate in the cultural life of the community, to enjoy the arts and to share in scientific advancement and its benefits."

Americans have been through enough over the past year, and many are living under extremely dire circumstances. Please do your part to protect us from further harm by ensuring that the extraordinarily powerful pharmaceutical industry, the regulatory agencies that govern pharma, and the public-private partnerships that stand to make billions off of passports do not have the final say in shaping our culture and how we live our day-to-day lives. Our basic human rights and our democracy depend on it.

Thank you for your attention to this urgent matter.

Julie Fritts  
Poulsbo, WA
