Restaurants Receive “100% Club” Food Safety Awards

BREMERTON, WA — In recognition of a job well done, the Health District annually awards the 100% Club Award to those restaurants that have distinguished themselves by practicing excellent food safety methods. There are over 500 food establishments currently permitted by the Health District that are categorized as a restaurant and were considered for the 2009 awards. The restaurant category contains quick service restaurants, full service restaurants, and take-out establishments that include supermarket delis.

Of the 500 food establishments considered for the 2009 100% Club Awards, 100 of the establishments met the stringent criteria developed for this Award. Restaurants that had received a score of 100% on the last two consecutive routine inspections became eligible for consideration for the Award. Each eligible restaurant needed to meet the following additional criteria to receive the Award:

- No confirmed or suspected foodborne illness history during the past year.
- No Health District closure due to an imminent health hazard during the past year.
- The restaurant must be on approved water and approved on-site sewage system or sewer.
- No complaint that was confirmed to be a violation during the past year.

The 100% Club Award Certificates were mailed to qualifying restaurants in September. The establishments receiving the awards are listed in the attachment to this release.

For more information, contact the Kitsap County Health District’s Food Safety Program at (360) 337-5235, Monday through Friday, between 8:00 a.m. and 4:30 p.m.
