For an EnviroStars application or information call Niels Nicolaisen at 360-337-5604

Congratulations to Dr. Kitamoto for becoming a 4 star certified EnviroStar business. The EnviroStars program recognizes businesses for reducing and properly managing their hazardous waste.

The office has reduced their hazardous waste in a variety of ways. They recently installed a new x-ray processor, which can be cleaned with a bleach-water solution generating virtually no waste. They also use only one cleaner for general disinfecting and cleaning reducing the need for many chemicals.

Dr. Kitamoto does not use amalgam fillings however he does remove them. Dr. Kitamoto purchased an amalgam wastewater separator to keep residual amalgam out of the wastewater. The office also uses secondary containers underneath hazardous waste as a spill prevention measure. There is also a written hazardous waste spill response plan.

Dr. Kitamoto

In addition to reducing hazardous waste the office also has a solid waste-recycling program. Recycled materials include paper, plastic and aluminum cans.

For more information on Dr. Kitamoto's pollution prevention practices, contact their office at: 206-842-7442
